

Counter Unmanned Aerial Systems and Missiles EOD Operators Course Factsheet

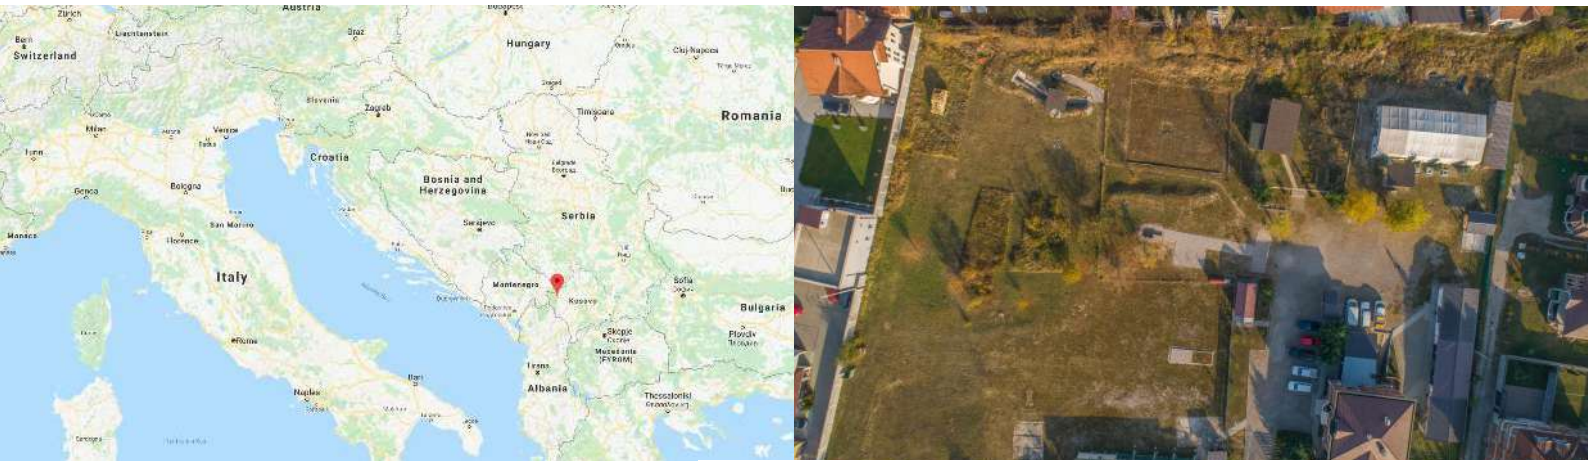

Who is this course for?

This programme is designed for intermediate and advanced EOD Operators to safely conduct reconnaissance, categorisations, and render-safe of technical munitions and their component parts. This includes finding, assessing, and neutralizing UAS, Missiles, and GWs. The Course will be run at the Client's preferred location in the Middle East or, alternatively, at the world-renowned MAT Kosovo EOD & ERW Training Establishment in Kosovo. The pre-requisite for attending this course is an intermediate to advanced EOD qualification (IMAS EOD Level 3 or 3+ or equivalent).

World-class training, delivered where you need it most

Course delivery available at the client's preferred location across the Middle East, ensuring maximum operational relevance and convenience; alternatively, training can be delivered at the world-renowned MAT Kosovo EOD & ERW Training Establishment in Kosovo.

Where is MAT Kosovo located?

MAT Kosovo is situated in Peja in the west of Kosovo at the base of the Rugova Valley surrounded by picturesque mountainous views. Peja is the third largest city of Kosovo with a populace of some 100,000. Only a few minutes' walk sees you in the city Centre, with modern shops, super markets, chemists and many restaurants; it is the perfect place to spend your down time and relax. The locals are friendly and hospitable with Peja boasting a rich cultural and historical heritage, in addition to the breathtaking surroundings.

Counter Unmanned Aerial Systems and Missiles EOD Operators Course outcomes:

Upon completion of the course, participants will be able to safely locate, assess, categorise, and render safe technical munitions and their component parts, including UAS, missiles, and guided weapons.

Included in Core Syllabus:

1. Advanced Explosive Theory
